Justice Knight Mar 20 20

Season 1 Episode 14

Pyragrim

Justice Knight, Yuio, and Krysta are in Justice Knight's lair while a short professor-like man takes a critical examination of Bootes as a statue. The short professor-like man uses gadgets and he chips a small sample of the stone from Bootes. Yuio said, "You know what you're doing? I don't think Bootes would like it if you chipped something from him." Justice Knight said, "He's just taking a sample from him so he can bring it to his lab where he can further examine it. I trust him. He is one of the most critically acclaimed stone experts in Azureis." The professor-like man collects the sample and he packs up his suitcase. The professor-like man said, "This is all I can do for now. I will do more tests in my lab. Here's my business card." The professor-like man hands Justice Knight his business card. The business card reads, "Pyragrim. Master of the stone age being brought today." Justice Knight said, "Thanks." Pyragrim said, "Don't mention it. I will be on my way." Pyragrim leaves Justice Knight's lair." Krysta said, "Do you think he will find a cure for Bootes?" Justice Knight said, "I'm sure he will. That is if Bootes is even curable."

Pyragrim walks through the busy streets of downtown Azureis. He walks down an alleyway and he walks into a door on a brick wall. The room is mostly black and a figure of some villain is in there. The villain said, "Do you have the sample of stone from Bootes?" Pyragrim said, "Yes. I will take it from here. Your invasion plan in 1992 is going to be a success. You have me and Bootes to thank for it. They will have no choice but to follow your orders knowing you can turn them into stone."

Justice Knight looks over specs with Krysta and Yuio is playing with his paddleball. A red-light flashes on Justice Knight's desk. Justice Knight presses the red-light and a screen pops up showing people of the world in 1992. It shows people running away from evil robots and appliances. Brave heroic groups of people take a stand against the machinery and they fight off the machines. The machines rest in heaps of debris. Then, a flying robot being controlled by Pyragrim enters the scene. He uses some new kind of ray and he turns the heroic people into stone. Pyragrim announces over a loudspeaker, "I am Pyragrim! Dr. Gruzzard is your new master! You will do what he wants or else you will get turned to stone by me!" One of the townspeople gets up and shakes a fist at Pyragrim. The man said, "You cannot have what I worked for. You will never take me alive I tell ya! Never!" Pyragrim uses the ray and he turns the man into stone. Pyragrim said, "Anyone else?" Everyone runs away and they hide in their homes which look old and run down.

Yuio stops playing with his paddleball to watch this. Yuio said, “What’s going on here? Is that the guy that was just in our lair? Why is he being such a bad guy?” Justice Knight said, “That’s because he is a bad guy. Why don’t the two of you have a seat there? I have a history lesson to teach you.” Krysta and Yuio take seats and Yuio said, “Boy how I love story time.” Justice Knight takes out a chart and it has the faces of Jason and Mason on it. Justice Knight said, “This is Jason and Mason. They were students of Dr. Gruzzard’s academy. In 1992, Dr. Gruzzard stole Mason’s technology and he attempted to use it to rule the world.” Justice Knight shows Krysta and Yuio Dr. Gruzzard and Dr. Gruzzard being at the controls of Mason’s technology. Justice Knight said, “Jason and Mason put up a good fight against Dr. Gruzzard and they won and Dr. Gruzzard was sentenced to prison for the foreseeable future and Jason and Mason were heroes. It looks like Dr. Gruzzard somehow knew his plan would fail so he got our very own, Pyragrim to take his side. My hypothesis is that Pyragrim needed that stone sample from Bootes to complete a ray he may have made that turns people into stone. If he gave this to Dr. Gruzzard, he would rule the world for sure and Pyragrim would be a very rich man. We cannot let history be disrupted by this. Jason and Mason need to defeat Dr. Gruzzard for the timeline to be normal. You guys know the drill.” Krysta said, “It looks like we’re going to 1992.”

Justice Knight, Yuio, and Krysta step out of a portal and they are in a scummy alleyway in some major city. Justice Knight takes a peek ahead. Justice Knight said, “Watch my back and I will peek ahead.” Justice Knight and his friends walk down the street. A building collapses and It almost hits Justice Knight and his friends. They keep walking down the street. They see giant evil robots taking candy and comics from kids. Justice Knight arms his sword and he dashes to the evil robots and he cuts their arms off. The candy and comics lands in the hands of the kids. Justice Knight said, “Don’t ever pick on them kids again!” The robots cry and they run away. Justice Knight looks at the kids and he said, “Are you kids alright?” One of the kids said, “Thanks, whoever you are.” Justice Knight said, “I am Justice Knight. I am a hero that is going to save you all. Could you tell us where we are and can you show us where resistance people are?” The other kid nods yes and said, “Yes, Justice Knight sir. We could use you around here.”

The kids take Justice Knight, Yuio, and Krysta to the basement of a forgotten community center. The kid said, “Here’s my dad. He’s the coolest guy ever.” The kid’s dad comes around and he shakes Justice Knight’s hand. He said, “You could call me Clint. I am the brains of this place. I find people in danger and bring them down here.” Clint gives Justice Knight and friends an overview of the place. There are 1992 era computers lying around and there are comic books and superhero action figures lying everywhere and there are even some VHS tapes of kids superhero shows. Justice Knight said, “There seems to be a lot of kids stuff lying around.” Clint said, “There are a lot of superhero fans in this town. We look up to them for inspiration. We need a lot of that in times like this. I am sure you know what is going on here.” Justice Knight said, “I know everything there is to know about this place and time. I don’t know exactly where we are though.” Clint said, “You are in Riverside California. We got plenty of food and drinks down here if you’re interested.” Justice Knight and friends sit with Clint as they snack on nachos and soda. Clint said, “It seems like it’s been an eternity since the last time we got new members for our resistance. I think the kids will love you. You seem to be like a superhero. I

bet you have what it takes to take a stand towards that Dr. Gruzzard." Justice Knight said, "We're not here to fight Dr. Gruzzard. That's Jason and Mason's job to get Dr. Gruzzard. I'm here to take on this man." Justice Knight shows Clint a picture of Pyragrim." Justice Knight said, "Do you know this man?" Clint said, "I don't believe I have." Justice Knight said, "This is Pyragrim and he is helping Dr. Gruzzard. He turns people into stone if they don't do what Dr. Gruzzard wants." Clint said, "I think I heard something about that somewhere. I thought it was just a rumor. I didn't think something so ridiculous could exist." Justice Knight said, "It does."

Pyragrim has a scanning gadget with him and he scans the area Justice Knight and his friends entered. Pyragrim said, "I also picked up energy signatures from Justice Knight. My gadgets tell me he is in this area somewhere. It looks like the signal is coming from underground. Why would Justice Knight be underground?" One of the robots with Pyragrim said, "Maybe Justice Knight found a group of resistance people we were looking for and they are underground." Pyragrim said, "That sounds perfect. I want you bots to dig up this entire area. You will not stop until you find Justice Knight. If we let him free in this time, he might stop my plan from working."

Yuio plays on an MES system with some kids while Krysta looks through some of the comics. Krysta sees the heroes in them and she imagines herself being one of the heroes in the comics. Krysta sees a trail of them and they lead into a room labelled, "The Writing Room." Krysta enters and she sees comic artists in there writing and drawing comics. Krysta said, "Is this where comics are made?" One of the writers said, "One of them. This is where we write the Psionic Genie and more." Krysta has a comic of the Psionic Genie in her hand. The writer said, "The comic is not really going anywhere. We need new heroes and villains for a fresh approach." Krysta said, "I've got a lot of ideas." Krysta jumps on the table and does heroic poses. Krysta said, "How about a story about a Knight that has to save his kingdom from an evil time travelling King that alters history." The writer said, "I like that. Guys, listen to this stuff." Other writers and drawers in the room stop what they're doing and they watch Krysta.

One of the writers said, "A knight that goes through time and helps other heroes and fights various different villains. I bet the kids will love it." Krysta bows down and she said, "Thank you, thank you. It was an honor for me to help." Then, the door to the basement explodes and Pyragrim and his robots with stone rays on them barge in the place. Clint flips up a table and he hides behind it. Justice Knight arms his sword and he holds it at the bad guys. Pyragrim said, "Justice Knight, I knew I would find you here. You have all the petty resistance people in town down here. Now I know what to do." Krysta runs between them and she said, "You can't do anything to these people. They mean no harm. They are mostly just writers and drawers. They can promote your work. They can create a multi-million-dollar franchise that could earn you even more. You can forget all about this Dr. Gruzzard stuff and do something people will actually like." Pyragrim said, "That sounds like a nice idea but, why not just do the two of them and make even more money." The robots arm their stone blasters and they turn a lot of the innocent civilians into stone. Justice Knight blocks the ray with his sword and he cuts their guns in half and he cuts the heads off some of the robots. More robots come in and they gang-beat Justice Knight. Krysta uses some Kung Fu and ninja moves on the robots and she

fights a few of them off. Yuio charges in the place and he eats a few of the robots and he flames down the rest of them. Justice Knight aims his sword at Pyragrim. Justice Knight said, “It’s over now. You can’t beat us.” Pyragrim said, “Oh really…” Pyragrim snaps his fingers and his giant flying robot rips the ceiling to the basement off and throws it away. Pyragrim jumps in the control seat and he grabs Justice Knight, Yuio, and Krysta and he zips away with them. Clint watches them fly away and he sees where the robot lands.

Pyragrim unloads Justice Knight, Yuio, and Krysta into glass tubes. Pyragrim places several tubes filled with liquid cement over the tubes the heroes are in. Pyragrim said, “Normally, I would just freeze you in stone for putting up such a big epic fight. This time, I think you three deserve more.” Pyragrim waves his hands around and his robots begin loading the tubes with liquid cement. Yuio taps the tube and he sees it is made out of glass. Yuio breathes a lot of fire and the fire melts the glass tube. Yuio flies around the venue and robot arms with white gloves on them come after him. Yuio flames down the robot arms and they fall and break. Yuio smashes the tubes Justice Knight and Krysta are in. Justice Knight and Krysta fall and they land on the metal ledge Pyragrim is on with both feet. Justice Knight takes out his sword and Pyragrim takes out a small stone ray and he blasts Justice Knight’s sword with it. The stone ray has no effect on the sword. Pyragrim said, “What gives?” Justice Knight said, “My sword is stronger than anything you ever would have known.” Justice Knight cuts up the stone ray into small particles. Pyragrim said, “You guys are forgetting something. I still have my giant flying robot.” Pyragrim jumps in his giant flying robot. It makes a fist and it tries to smash Justice Knight and it misses. Justice Knight jumps on the fist and he runs up the arm and he slashes the head of the robot several times with his sword. The sword only scratches the head and does not do much damage. Pyragrim grabs onto Justice Knight by his foot. He rapidly shakes Justice Knight and Justice Knight drops his sword and it lands on the floor. Pyragrim tries to lift the sword with the robot’s other arm but the sword does not move at all. Pyragrim turns to Justice Knight and he said, “What kind of trick is this?” Justice Knight said, “Only worthy people are allowed to lift the red ruby sword of Justice.” Pyragrim said, “That’s it. I’ve had enough. I am fed up with you.” Pyragrim’s eyes go red and two grey beams come out and they clash with Justice Knight and Justice Knight turns into a stone statue.

Meanwhile, Krysta finds a door on the side of Pyragrim’s robot and she opens it and jumps in the robot. She crawls through the small spaces and she enters a larger room. Krysta looks around the place and she sees a table filled with chemical formulas. Krysta looks at the labelling of each of them. Krysta sees that one of them is an antidote for the stone freezing. Krysta goes to her communicator and she calls Justice Knight. Pyragrim is still holding onto the frozen Justice Knight and his communicator sounds and Krysta’s voice comes out of it. Krysta said, “Justice Knight. It’s me Krysta. I am here inside Pyragrim’s robotic body. I think I found the antidote for the stone freezing.” Pyragrim reaches one of his arms throughout his body and he finds Krysta inside him. Krysta sees the arm come for her. She smacks it off. She takes one of the chemicals and she throws it are the hand and it melts the outer casing off the hand revealing the inside circuits. The hand still functions and it grabs onto Krysta and it brings her to the front head where Pyragrim controls the robot. Pyragrim makes the robot’s eyes go red again and Krysta turns into stone.

Pyragrim looks over the venue and he sees that Justice Knight and Krysta are stone statues. Pyragrim said, “Both of the biggest threats to my cause are frozen in stone. Now where is that dragon?” Yuio said, “I’m over here.” Yuio whips Pyragrim with his tail and he wraps his tail around the head of the robot and he rips it off. Yuio said, “You are no longer attached to your robot. You cannot control it now.” Pyragrim said, “You’re wrong.” Pyragrim makes the robot body target Yuio and then fire a grey beam at Yuio and he turns to stone. He was still carrying the head that Pyragrim is in so Pyragrim and Yuio fall to the floor.

Pyragrim gets out of the head and he sees the three heroes are stone statues in front of him. Pyragrim said, “Looks like I won. Dr. Gruzzard is going to give me even more for this.” The door to the place barges open and Clint is there with the writers, drawers, and other townspeople. Clint said, “There he is. Let’s give it to him.” The angry mob of people run for Pyragrim and a fight cloud forms around them. Clint leaves the fight cloud and he goes to the statues. He said, “My dear…” He sees Krysta has an antidote on her. Clint takes the antidote and he pours it on her and the stone breaks off her and she is back to normal. Krysta said, “Justice Knight I think I…” Clint said, “It looks like we won.” Clint pours the liquid on Justice Knight and Yuio and the stone breaks off them and they are back to normal. Pyragrim is tied up in tape and he is placed in front of Justice Knight. Clint said, “Now that Pyragrim has been defeated, it looks like we even have an antidote. The ingredients are listed right here. Justice Knight, it looks like we owe you and your friends big.” One of the writers said, “Justice Knight. That sounds like a perfect title for a new comic series. I think it will be a hit for sure.” The kids cheer them on. Justice Knight looks at the formula and he writes it down.

DDD News comes on. George Ferrier is on the screen and he said, “Hello, I am George Ferrier of DDD News. In today’s news, an associate of Dr. Gruzzard, Pyragrim has been defeated by a new hero called, Justice Knight. Local writers have created a new comic series dedicated to this guy.” George Ferrier shows the first issue and he opens it and he shows the contents of it. It shows Justice Knight fighting bad guys and rescuing people and other heroes teaming up with Justice Knight. George Ferrier said, “It looks like we have this year’s biggest hero… Wait what is that? This is just in, it seems Dr. Gruzzard has been defeated. He was defeated by two local twin boys called, Jason and Mason.” A photo of Jason and Mason is shown. George Ferrier said, “Dr. Gruzzard has been defeated and it looks like he no longer own DDD News and all those other things he ruined for us. Jason and Mason are the heroes of this year and for the rest of eternity. I don’t even remember what I was talking about before this came up.”

Justice Knight, Yuio, and Krysta are in Justice Knight’s lair and they watch the DDD News report. Krysta said, “This always happens to us. We do all the work and then someone else comes along and everyone magically forgets us.” Justice Knight said, “Being a great hero is not about recognition. It is about the work you do and the meaning of it. We did what we came to do. We stopped Pyragrim from turning everyone into stone and we even got ourselves an antidote. Let’s try it.” Justice Knight pours the formula on the Bootes Statue. The stone breaks off it and Bootes is there and back to normal. Bootes said, “Justice Knight. I am glad to see you. Arcturus has a plan to take over the world in the past, present, and future.” Justice

Knight said, “We all know. We just freed you. You were frozen in stone for the last few months. I think it is best you stay here where you are safe. We need your intellect in our battle against Arcturus.”
